

## Dart

MORE INFO

## CHARACTERISTICS

- Ideal for small and medium floors up to 1260 sqm, especially when congested by people or furnishing like in wellness centres, gyms, car showroom, retail shops, hospitals and schools.
- Automatic brush attachment, discharge and delayed cut-off.
- Narrow body with both side brush protrusion and 300° squeegee spin.
- Toolless removable recovery tank with large visual inspection window and stretchable discharge hose.
- Adjustable driving handle with dead man switches, soft touch controls and diagnosis (Eco Energy mode and battery low level automatic cut-off for DC version).
- Clean water tank level indicator
- Large non marking working wheels and sturdy rear roller for displacements.

**PLUS**

On/off switch protecting unintentional use. Protection against overloads, battery discharge abuse (DC only) and undesired run. Convenient one switch maintenance over the brush. Eco Energy setting for extensive working time and extremely quite operations (DC only).

Extensive squeegee spin for easy blade replacement and perfect suction even on corners. Easy setting and automatic solution release to save chemical and fit different floor conditions. High stability and capability to overtake small steps.

Easy access and handling to clean recovery tank and floater. Less downtimes due to simple maintenance and construction. Great visibility and cleaning capability on hard to reach edges on both sides of the brush.

Parabolic squeegee, easy rubber blades replacement. The floating brush plate and squeegee grant the right cleaning pressure on any type of floor.

**STANDARD EQUIPMENT**

|                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                              |  |
